

## Using Advanced Placement to Satisfy UC Eligibility and IGETC (2008–09)

The University of California grants credit for all College Board Advanced Placement Tests on which a student scores 3 or higher. Students should be aware that college courses taken may duplicate the content of AP examinations. In these cases, the University may not award credit for both the course and the AP exam. Each exam listed below may be used in lieu of one course to satisfy one UC Eligibility requirement or one IGETC area and the area 6A proficiency level as listed. New AP exams will be reviewed as they are developed (such as Russian) and included on the chart where appropriate.
