*** Optometry Admission Test (OAT) Information:**

The OAT is mandatory for all applicants. Students desiring to enter the School of Optometry should arrange to take the OAT in October no later than the October before entrance (the following February date is too late for consideration).

OAT is now offered as a computerized test at Prometric Testing Centers and can be taken an unlimited number of times but must wait at least 90 days between testing dates (including any combination of written and computerized tests). See <http://www.2test.com> for information.

For additional information and a list of Optometry Schools, go to www.opted.org
